artwork guidelines

- **Your artwork needs to be created in illustrator or In-design & saved as a high resolution PDF X4.**
- **Your artwork should be supplied at quarter size and include 3mm bleed to all edges.**
- **If text or images run across panels, the artwork should be supplied as a spread on one art board. A low resolution panel breakdown should also be supplied.**
- **Please do not use spot colours – only CMYK will do.**
- **Please do not leave your cut lines or guidelines on the artwork as these will also be printed.**
- **All images you include must be a minimum of 300 dpi and embedded into the file.**
- **All logos and text need to be outlined.**

**Failure to follow these guidelines could result in a delay to the delivery of your order.**
